

VIMEO TECH TIPS

1. If you are using a phone or tablet, when you get to the Choctaw UMC's Vimeo page in a web browser, make sure you are on the "Videos" tab, rather than the "About" tab.

2. If you log on to the stream early, and the countdown video does not start on your screen at 9:55 a.m., try refreshing your browser.

4. If you have trouble viewing the service during the actual live stream, try refreshing your browser. (see step 2)
5. You can download our videos after they have posted (after the live stream ends). This could help with viewing if you have a slow internet speed. [CLICK HERE](#) to learn how to download a video.
